Pass / Fail Modules

Pass / Fail modules will be identified by the suffix of an * against the module code. Where 'Pass' is indicated under "Decision" the student has met the learning outcomes of the module, therefore no percentage mark or grade is awarded.

Decisions

Pass means the learning outcomes of the module have been met
Passed after Referral means did not pass the module at the first attempt but has subsequently passed
Passed after Repeat means did not pass the module at the first attempt but has passed after repeating the module
Compensated Pass means did not meet the learning outcomes through assessment but judged to have met the standard of the award due to strength of overall performance at this level of study.

Recognition of Prior Learning (or RPL) Module

No mark, grade or decision is displayed for modules marked as "RPL". RPL means that the student has met the necessary learning outcomes as a result of previous study or relevant experience.

Credits

The European Credit Transfer System (or ECTS) compares credit values for students studying at institutions in other European Union countries.

Additional Modules

Modules that have been passed but are not included in the award calculation are listed separately on the transcript and are not included in the credits gained for award total but will show in the Total Credits Gained.
